

24 April 2024

To whom it may concern,

As the programme coordinator I hereby confirm that candidates can in principle be accepted for the structured MSc (Machine Learning and Artificial Intelligence) programme, commencing in 2025 at Stellenbosch University, without confirmation of a supervisor. The programme is structured such that accepted students will first complete a number of taught modules, before being assigned supervisors for their research projects in the second half of 2025.

Feel free to contact me for additional information.

Yours sincerely,

Prof. Willie Brink

Associate Professor of Applied Mathematics

Programme coordinator of the MSc (Machine Learning and Artificial Intelligence)

Stellenbosch University
